**We will also utilize the information you provided for PowerSchool. If information regarding health issues, transportation, or demographics needs to be updated, please contact either CIS or CVMS.

Dear Parents,

Cameron School District is providing the community an exciting learning experience during our summer school session. The curriculum will be centered around a central astronomy theme. Our summer school program will provide an opportunity for students to experience over 60 hours of advanced academic preparation for the year ahead, as well as to review and apply previously learned skills and knowledge. Summer school will help students meet targeted educational goals using innovative, research based teaching strategies and integrated technology.

We like to reward students for their hard work, dedication, and effort through an incentives program being implemented. Students will be eligible to receive **prizes** if they come to school, exhibit a positive attitude, demonstrate proper behavior code of conduct, and work to improve their achievement. And, as in past years, all of our students who demonstrate outstanding attendance will be well rewarded with an **Attendance Recognition** ranging from \$50 for “near perfect” attendance to \$100 for “perfect attendance”. The attendance recognition will be mailed during the month of July.

We hope everyone will take advantage of this learning experience we have created for your student! Look at the information on the back of this letter. Questions or concerns please contact Mr. Wernimont at mwernimont@cameronschools.org or 816-882-1041.

Sincerely,

Mr. Wernimont
